- Heating – make up air units, split systems & roof top units
- Boilers – hot water, steam, heating & process
- Boiler CSD1 State Inspections
- Boiler pumps and condensate receivers
- Burner and flame safeguard controls
- Heat pumps

Who We Are

W. Soule is 70 years of unrivaled experience, dexterity and skill that provide process integration, custom fabrication, process piping and millwright services.

About W. Soule

W. Soule began as a family-owned piping contractor in 1946 in Paw Paw, Michigan.

The owner-driven commitment to quality and customer service earned the company a solid reputation. This reputation helped W. Soule grow into a multifaceted, multi-million dollar custom industrial fabricator providing process solutions and fabrication innovation; specializing in the food, pharmaceutical and chemical industries.

Today, the company has offices and fabrication shops spanning Michigan and central Florida; and employs over 400 skilled craftsman, engineers, business staff and management who focus on providing full-service support to our customers.

Contact us today to see your work done W. Soule-style.
